Team ID	SWTID-2026-7764
Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	N/A

Data Import Configuration Evidence

Record the target table, Import Set, Transform Map, five field mappings, Employee ID coalesce setting, and the related configuration screenshots.

S.No.	Parameter	Values	Screenshot
1.	Target table	Employee Test; u_employee_test.	Five String fields per project walkthrough.
2.	Import Set	Employee Import; u_employee_import auto-populated.	Capture staging configuration.
3	Transform Map	Sample Spreadsheet Import; Employee Import source; Employee Test target.	Capture map form.
4	Field mappings	Employee ID → Employee ID; Name → Employee Name; Email → Email; Department → Department; Location → Location.	Capture all five mappings.
5	Coalesce setting	Employee ID Coalesce enabled.	Capture field map setting.
