

Import Workflow Evidence

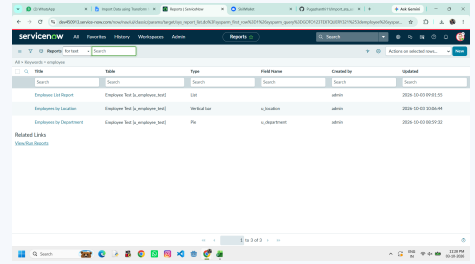

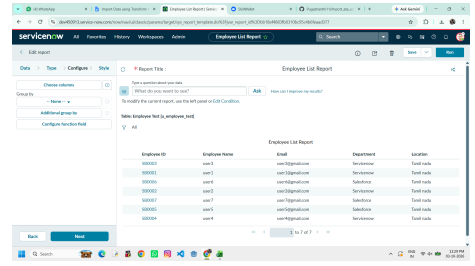

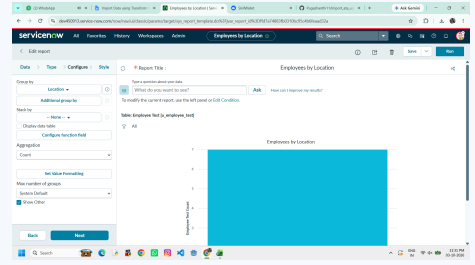

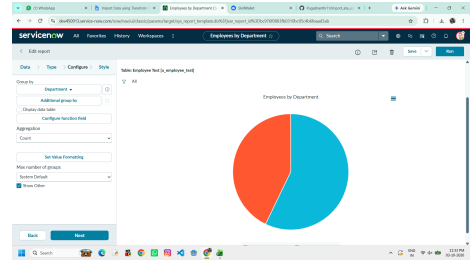

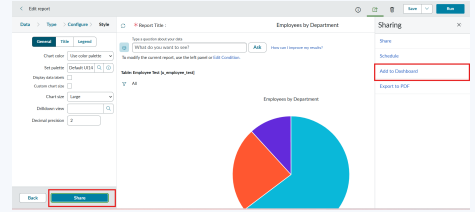

PHASE 5 | PROJECT DEVELOPMENT AND VALIDATION

This evidence register documents the end-to-end ServiceNow spreadsheet import, field mapping, transform validation, and employee reporting workflow. It combines the supplied ServiceNow walkthrough with the five project screenshots in the repository.

Project name	Import Data using Transform Maps (Spreadsheet)
Team ID	SWTID-2026-7764
Project date	30 September 2026

ServiceNow evidence register

No.	Workflow step	Configuration or observed result	Evidence screenshot
1	Source workbook	Sample Spreadsheet.xlsx has the source headers Employee ID, Name, Email, Department, and Location.	 Figure 1. Source workbook.
2	Load Data entry	Open Load Data from the ServiceNow Application Navigator to begin the spreadsheet import.	 Figure 2. Load Data entry.
3	Import Set staging	Employee Import (u_employee_import); Sample Spreadsheet.xlsx; sheet 1; header row 1.	 Figure 3. Import Set staging.
4	Transform Map	Sample Spreadsheet Import connects Employee Import to Employee Test and provides the transformation configuration.	 Figure 4. Transform Map.
5	Field mapping	Map Name → Employee Name; map Employee ID, Email, Department, and Location to their same-named target fields.	 Figure 5. Field mapping.
6	Initial transform history	The documented four-row run completed with 2 inserts, 2 updates, 0 ignored rows, and 0 errors.	 Figure 6. Initial transform history.
7	Repeat-load coalesce	Reprocessing the same four rows produced 0 inserts, 0 updates, 4 ignored rows, and 0 errors.	 Figure 7. Repeat-load coalesce.

No.	Workflow step	Configuration or observed result	Evidence screenshot
8	Report inventory	The ServiceNow reports list contains Employee List Report, Employees by Location, and Employees by Department.	 Figure 8. Report inventory.
9	Employee List Report	List report for Employee Test with employee ID, name, email, department, and location columns.	 Figure 9. Employee List Report.
10	Employees by Location	Bar report grouped by employee location, using Count as the aggregation.	 Figure 10. Employees by Location.
11	Employees by Department	Pie report grouped by department, using Count as the aggregation.	 Figure 11. Employees by Department.
12	Dashboard handoff	The project dashboard consolidates the list, location, and department reports for the intended audience.	 Figure 12. Dashboard handoff.

Source note: The source workbook uses Name; Mapping Assist maps it to Employee Name. Department labels visible in sample charts are data values.
